Gary E. Strong, State Librarian

Photographs. Restoration of the State Capitol, California's bicentennial project, was completed this year. We salute the grand old building in photographs from the State Library's California Section. Photos such as these, and early plans and drawings of the Capitol in the State Library's collection, were used by the architects and designers in creating the splendid restoration. On the cover: Capitol and grounds from the north, 11th Street in the foreground, 1885. Page 3: Senate chamber, ca. 1890. Page 4: State Library Law Department located in the Capitol, 1912. Milton J. Ferguson, later State Librarian (1917–1930), is at the Assistant State Librarian's desk. Page 6: Sculptor Edward Field Sanford Jr. inspects frieze on the new Library and Courts Building under construction, 1925. West face of the Capitol in the background. Page 9: Capitol east rotunda entrance, ca. 1930. This portion was demolished in the 1950s for addition of the new Capitol office wing. The rotunda housed the State Library until completion of the Library and Courts Building in 1928. Page 77: Reading room and stack area, State Library in the Capitol, 1904. Page 78: Menu from a 1925 dinner honoring the Governor and key legislators. L Street and north face of the Capitol are seen through the portico of the Senator Hotel. On the menu were California oyster cocktail, consumme royal, sweetbreads Toulouse, half broiled spring chicken on toast, vegetables, Mignon salad, dessert and demitasse. Page 147: Capitol under construction, from the southeast, 1868. Page 148: Capitol west entrance, corner of 10th and L Streets, ca. 1890. Page 151: Architect's drawing of cross section of the Capitol, 1906. Page 155: Capitol west entrance, 1931. Page 156: Capitol east entrance and park, 1904.

How to use this publication

The statistical tables, roughly the first half of this publication, are arranged by type of library and include such information as persons served, staffing, income, expenditure, collections and activities. Public libraries are divided into six categories by size of population.

In the other half of this book, the directory section, libraries of all types are arranged in one alphabet, by city, with library name, address, director and other information provided.

The systems list includes library associations and organizations having a fixed headquarters address, library networks, reference centers, and systems organized under the California Library Services Act. The alphabetical address list of public libraries follows.

Three indexes are provided. The first is a subject index to special collections in reporting libraries. Next is an index to the names of library directors. The volume concludes with a name index for locating libraries in the tables and in the directory section. Alphabetical arrangement is letter by letter, not word by word.

This publication is issued in horizontal format for best presentation of the statistical tables, and for ease of opening and use.

Data for this publication are gathered from annual reports submitted by public, academic, special, state agency and county law libraries, and by CLSA library systems. They are published for the most part as submitted, though efforts have been made to correct and update entries insofar as possible, as noted below.

For fiscal year 1980–1981 we report 923 California libraries, as follows:

- 168 public libraries with 3,110 public service outlets, down 4% from last year's 3,226 outlets. By jurisdiction, there are 44 county, 104 city, eight combined city-county, and 12 district public libraries. By level of service, there are:

  162 main libraries. Administrative headquarters are not included, and some county or district libraries have no main library.

  567 branch libraries. A branch is an extension library open some part of each of five days a week, has at least 1,400 square feet of floor space, a general book collection of at least 7,000 volumes, and is staffed with the equivalent of at least one librarian and one clerical employee during hours open for service.

  390 library stations. A station is a library structure smaller than a branch, providing a lower level of service.

  1,991 mobile library stops. A mobile library stop is a location visited by a bookmobile or other traveling library. There are 84 mobile libraries in operation this year.

- 162 academic libraries:

  29 state supported libraries.

  94 community college libraries.

  39 private academic libraries.

- 460 special libraries, including 59 operated by the federal government:

  19 popular libraries at U.S. armed forces installations.

  29 legal libraries.

  107 medical libraries.

  12 religious libraries.

  157 libraries operated by for profit organizations.

  136 libraries operated by non-profit organizations.

- 75 state agency libraries:

  35 resident libraries at state institutions and schools.

  8 legal libraries.

  9 medical libraries.

  23 special libraries.

- 58 county law libraries.

Public libraries are grouped into six categories, by size of population served: (1) over 500,000; (2) 100,000 to 500,000; (3) 50,000 to 100,000; (4) 25,000 to 50,000; (5) 12,500 to 25,000; and (6) under 12,500. These category numbers appear in the directory entry for the library, and in the library name index. Subscript numbers in column headings, (A8, B1, etc.,), refer to numbered lines of the report forms, indicating exactly what entry is published. The dash (—) is used for zero, or "not applicable". The entry "NA" is used to mean Not Available, where the reporting library could not supply the data. Preprints of the public library tables were sent to the reporting libraries for validation, and their corrections incorporated in this published version wherever possible.

The first public library table is "Population and staffing". The population figure used is either the estimate of the Population Research Unit of the State Department of Finance or, in the case of library districts and other special cases, a local estimate by the library based upon a special census, planning study, or similar source. Where the local figure will better represent the library's true service area, it is published and marked with an asterisk (*). The area served in square miles, the total number of service outlets, and the total weekly hours in which all outlets are open for service are shown. Under "Hours of service weekly", if the jurisdiction has no main library the hours of the largest branch are entered.

The second public library table is "Income", with a breakout of local, state and federal sources.

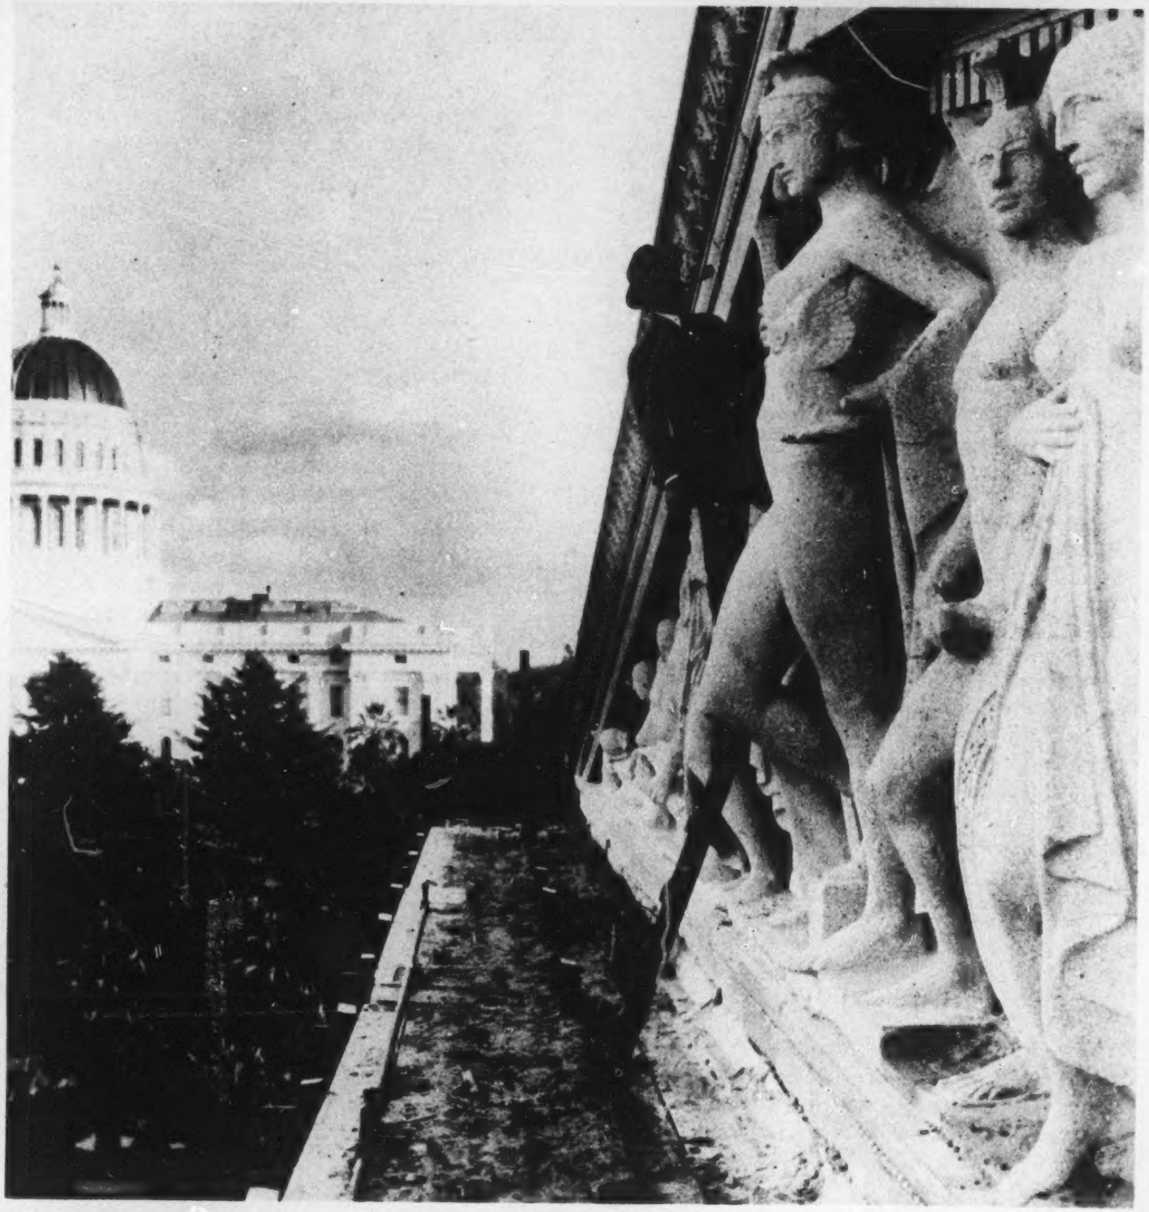
The third public library table is "Operating expenditure". Some libraries no longer break out expenditure for various types of library materials, so a subtotal of all library materials is published. "Total operating expenditure" includes all normal service expenses, but not capital outlay for vehicles, equipment, sites or buildings.

The fourth public library table, "Total expenditure", is an extension of the third table, including capital outlay and the grand total. The percentage of total operating expenditure spent for library materials and for salaries of library staff is computed. Column C17, "Services, benefits not charged", reports the estimate of the value of services and supplies which benefit the library but are not charged to the library budget. This figure is important for comparability, as some libraries pay for maintenance, accounting or other services from their budget and others do not, but all must obtain the services in one way or another in order to operate.

The "Equivalent operating expenditure" is the total of columns C12 and C17, and the best figure to use in comparing the expenditure of one library with another. The "Equivalent expenditure per capita" divides the equivalent operating expenditure by the population served, to indicate a dollar amount spent per person by the jurisdiction for library service.

Public library table number five is the "Salary survey 1981", which reports the monthly salary range in whole dollars, beginning step and final step, as of September 1, 1981, for eight selected professional and five support staff classifications. Where a single figure is given, the position has a flat rate, no monthly range.

The sixth public library table, "Collections", and the seventh, "Activities", complete the series.



Academic libraries are arranged by type of jurisdiction in three groups. Group 1 are state supported libraries, the University of California and the California State University and Colleges systems. Group 2 are community colleges. Group 3 are private institutions. For each group, library statistics are published in four tables: "Staffing and income", "Expenditure", "Collections", and "Activities". Data for the CSUC libraries were supplied by the chancellor's office, not by the libraries themselves.

Special libraries are grouped into four categories by type: for profit organizations, non-profit organizations, legal and medical libraries, and federal government libraries. Special library information is divided into two tables, "Staffing, expenditure and activities" and "Collections". Expenditures are given, where provided by the library. Abbreviations for library names are assigned both here and on the academic library tables, and the same short names are used in the index to special collections. They are identified in the library name index and in the directory entry for the library.

State agency library information is displayed in the same manner as that of special libraries. Included are residential and special libraries operated by state government agencies, hospitals and institutions, including the State Library, but not the University of California nor the California State University and Colleges systems, whose libraries are found in the academic libraries tables. Financial data reported for the State Library include both state and federal funds.

County law library information was gathered by the State Library Law Library, and distributed to participating libraries in greater detail in preprint. Libraries are arranged in order of number of attorneys practicing in the county, not alphabetically.

The directory section contains name and address information as supplied by the libraries on their annual reports. Wherever possible, information has been updated to final copy deadline, February 1982. Some libraries which did not complete the report this year but are known to be still in operation are included with the entry, "No report 1981". They, and others who returned the report but provided insufficient statistical information, do not appear in the statistics tables.

Directory listings are alphabetical by city. Within a city, they are alphabetical by name of library, or name of organization operating the library. Each reporting library is listed once. Library organizations and systems having a separate headquarters address are also listed. County library branches in cities over 12,500 population, and a very few other specialized branch libraries, are also listed. A complete listing of all branches of all libraries would be prohibitively costly to publish, but the information is reported on the annual forms and may be consulted at the State Library.

Libraries are coded by type according to a system adapted from that of the *American Library Directory:*

A – Armed forces popular library
C – College or university library
I – Institutional resident library
J – Junior college or community college library
L – Law library
M – Medical library
P – Public library, subdivided:
  PB – Branch public library
  PC – County public library
  PH – High school district public library
  PL – Library district public library
  PM – Municipal public library
R – Religious library
S – Special library, business, scholarly or other.

The short name used for statistical tables and subject index appears below the library type code. On public library entries, the population size group number appears below the short name. Library name, address, (with mailing address, if different, in parentheses), and telephone number are set off in a group to the right of the coding. The name of the library director appears next, followed for most entries by indications of library size and hours of opening. A brief statement of interlibrary loan policy is published for those libraries supplying one. Listing of membership in California Library Services Act systems, library networks, consortia or other library service groups concludes the entry.

The library name index is arranged alphabetically letter by letter, not word by word. Academic, special and state agency libraries are entered by the short form names used on statistical tables and in the subject index. This index thus serves as a key to short form names, directing the reader to the full library name and listing by city in the directory section.

In producing this year's publication the editor acknowledges with thanks the assistance of the following State Library staff members: Gary Kurutz, Special Collections Branch; Muriel Hoppes, Law Library; Rick Parrott, Photo Services; Veronica Kohaya, Lisa Wataji and Kai Wang, Library Development Services Bureau.

California State Library

Established by the first Legislature in 1850, the California State Library is a division of the State Department of Education. The State Librarian is appointed by the Governor and administers the State Library. The role of the State Library is to provide library services to the Legislature, state agencies and administration; to administer state and federal programs of financial aid to public libraries; to provide consulting and interlibrary services in backup of local libraries; to collect and preserve library materials on California and the west; and to offer special client services to disadvantaged and handicapped citizens.

The collections and services of the State Library are available to all, for in-library use. Materials are circulated to anyone in the state through local libraries by means of interlibrary loan. State officers and employees may borrow materials directly.

State Library services are provided from two Bureaus, each directed by a Chief of Service. Library Development Services Bureau is the field arm, including consultants and specialists who work with state institutions, public libraries and systems throughout the state. State Library Services Bureau sections provide reader services to the public and support the operations of the rest of the State Library. Additional sections, supporting library administration, report to the Assistant State Librarian.

The California Library Services Board (CLSB) of four members appointed by the Legislature, nine by the Governor, determine policy for and authorize payment of funds from programs of the California Library Services Act. Members serve for four years representing various constituencies, and also comprise the State Advisory Council on Libraries required by the federal Library Services and Construction Act. The State Librarian serves as Chief Executive Officer of the CLSB.

Current CLSB members:	Representing:
Marilyn M. Snider, President	Public Library Trustees
John Bareno	Public at Large
Christa H. Buswell	Institutional Libraries
Roger C. Greer	Academic Libraries
Wallace W. Hall	Public at large
Charles Knowles	Handicapped
Rita M. Lipkis	School Libraries
Jesus Luna	Limited & non-English speaking
Charles M. Monell	Public at large
John H. Woods, Jr.	Economically disadvantaged
(three vacancies)	

State Board members may be contacted at California Library Services Board, P.O. Box 2037, Sacramento, CA 95809, telephone (916) 322-8476.

The State Library is housed in three locations. Administration and most services are in the Library and Courts Buildings on Capitol Mall Circle between 9th and 10th Streets. (Mailing address: P.O. Box 2037, Sacramento, CA 95809.) Library hours are 8 am to 5 pm weekdays, closed Saturday, Sunday and holidays. Books for the Blind and Physically Handicapped is located at 600 Broadway, Sacramento, CA 95818. The Sutro Library, a branch of the State Library, is located at 2495 Golden Gate Ave. near Fulton St., San Francisco, CA 94118, on the campus of the University of San Francisco. Its hours are 10 am to 5 pm weekdays.

State Summary of Library Statistics

Each year the State Library sends annual report forms to California's academic, public, special, state agency and county law libraries. Statistical data from those reports are tabulated in this publication, with directory listings published in the companion volume, California Library Directory. Although the statistics program and these publications are promoted as widely as we can, participation for most is voluntary (public libraries are required by the Education Code to report annually to the State Librarian) and some choose not to do so. This makes the state summary less than complete. Libraries failing to return the report form two years in a row are dropped from the free publications distribution list. At present, no state agency collects data on school libraries, K-12.

For fiscal year 1981-1982 we report 745 libraries. However, we estimate there are at least 1,232 libraries, exclusive of school libraries, in operation in the state.

Type of library	Total reporting	Total estimated
Academic	144	185
Public	169	169
Special	325	700
State agency	49	120
County law	58	58
Total	745	1232

Data for public libraries are 95% complete, with all 169 libraries reporting at least partially. Among academic libraries, data for the two state systems, University of California and California State University, are also substantially complete. Community college and private academic library data are much less complete, reducing the academic library category as a whole to a level of approximately 75% completeness.

The majority of special libraries do not report annually to the State Library, though many of the largest and most cooperative do. The level of reporting in this category is about 45%, with financial data lower still as many private libraries consider that to be proprietary information.

The lowest reporting level of all, about 40%, is among state agency libraries. While many of these are small, one person operations, they are by definition supported with public funds and owe an accounting of themselves. The State Library continues to urge all state agency libraries to file the annual report, and is seeking through a variety of technical assistance and and consulting activities to bring them into the wider circle of library cooperation.

County law libraries by law exist in all 58 counties, but reports are received each year from less than 40 of them, about a 65% response. Fortunately, reporting libraries are in the counties of largest population.

The State Summary of Library Statistics table which follows should be used with the caution of its incompleteness noted above. The data are not complete, and never will be, but they are the best data we have.

Column headings

Total operating expend. Total operating expenditure, in thousands of dollars. Includes materials, salaries, operation, contract services, transfers and payments. Excludes capital outlay and transfer to reserves.

Salaries. Expenditure for staff salaries and benefits, in thousands of dollars. A subtotal of Total operating expenditure above.

Library materials. Expenditure for all library materials: books, periodicals, microforms, audiovisual materials, in thousands of dollars. Excludes supplies, binding and materials leased on contract. A subtotal of Total operating expenditure above.

Staff FTE. Total number of persons employed, professional and support, expressed in full-time equivalent (FTE). Full-time is normally 40 hours per week, but not less than 36.

Total volumes. Total count of volumes held at end of fiscal year, June 30, in thousands.

Circulation. Total annual out-of-building circulation, all materials, all units, in thousands.

ILL borrow. Number of items borrowed by reporting library on interlibrary loan from other libraries, in thousands. Includes photocopies sent in lieu of ILL.

ILL lent. Number of items lent by reporting library on interlibrary loan to other libraries, in thousands. Includes photocopies sent in lieu of ILL.

Reference. Annual total of questions answered by reporting library, in thousands: questions, readers assistance, bibliographies, research projects, data base searches. Includes activities requiring use of library collections and services and/or training and experience of staff, but not simple directional questions.

Public Library Systems

California's 15 cooperative public library systems are organized under the California Library Services Act (CLSA), most as joint powers agencies. They are governed by Administrative Councils made up of the directors of the member public libraries, aided by System Advisory Boards representing the public served. Most systems employ a Coordinator/Director and support staff. They maintain a communications system of telephone and, typically, electronic mail, direct distance dial units, or TWX. Either through system vans or by contact with member libraries, they provide regular delivery service for exchange of materials. One or more system reference centers, housed in the larger libraries, are supported for second level referral of questions individual libraries are unable to answer. Systems are supported by a combination of local membership fees and reimbursements, state CLSA program grants, and project awards of federal Library Services and Construction Act (LSCA) funds. Most systems have associated intertype library networks or affiliated academic and special library members.

The public library systems are:

BALIS	Bay Area Library and Information System, Oakland
Black Gold	Black Gold Cooperative Library System, Ventura
49-99	49-99 Cooperative Library System, Stockton
Inland	Inland Library System, San Bernardino
MCLS	Metropolitan Cooperative Library System, Pasadena
MOBAC	Monterey Bay Area Cooperative Library System, Monterey
MVLS	Mountain Valley Library System, Sacramento
NBC	North Bay Cooperative Library System, Santa Rosa
No. State	North State Cooperative Library System, Willows
Peninsula	Peninsula Library System, Belmont
SJVLS	San Joaquin Valley Library System, Fresno
Santiago	Santiago Library System, Orange
Serra	Serra Cooperative Library System, San Diego
So. Bay	South Bay Cooperative Library System, Santa Clara
So. State	South State Cooperative Library System, Los Angeles

Column headings - Public Library Systems

Systems: members. Short name of system and number of public library members.

Population. Combined population estimate for January 1, 1982 of the system member public libraries.

Area sq. mi. Combined service area in square miles of the system member public libraries.

Reference expenditure. CLSA allowance for provision of system reference services. Includes staff, materials and operations.

Communications expend. CLSA allowance for system telecommunications.

Delivery expenditure. CLSA allowance for maintenance of system delivery service.

SAB expenditure. CLSA allowance to support the System Advisory Board (SAB), typically including travel, postage and office supplies.

Total CLSA program. Total state award to the system under the four funded programs listed above.

LSCA Administration. System administration is a CLSA component not presently funded under the Act. To aid systems in a demonstration of the costs of planning, coordinating and evaluating the CLSA programs, awards of federal LSCA funds have been made.

Items delivered. Count of items exchanged through system delivery services.

System reference. Questions handled by system level reference centers. (BALIS is partial year only.) As referrals, the count duplicates a portion of the reference count of member libraries.

Public Libraries

California's 169 public libraries are departments of local government: city, county and special district. They vary widely in size and strength, from the City of Vernon with 90 residents to Los Angeles with more than 3 million, and cover the state with a network of branch libraries, bookmobiles and other extension services. Most participate in cooperative library systems comprising all the public libraries in a county, or several adjacent counties, offering equal access and sharing of resources among all residents. Address listings may be found in the companion volume, California Library Directory.

Data on the following tables are taken from annual reports submitted to the California State Library. Preliminary tables were compiled from these reports and published as Public Library Statistics 1983, Advance Edition. Additions and corrections received from libraries up to the cut off date have been incorporated in the tables in this volume, which supersede those of the Advance Edition.

Public libraries are grouped into six categories by size of population served:

Group 1	over 500,000 population
Group 2	100,000 to 500,000 population
Group 3	50,000 to 100,000 population
Group 4	25,000 to 50,000 population
Group 5	12,500 to 25,000 population
Group 6	under 12,500 population

For each size group there are five tables:

Table 1, Profile	Population, system, outlets, per capitas
Table 2, Income	Local, state, federal sources, total
Table 3, Expenditure	Materials, salaries, total
Table 4, Collections	Print, microform, audiovisual
Table 5, Staffing and activities	Staff, circulation, ILL, reference

Public library statistics were assembled for the first time this year on a microcomputer data base. Some changes in format were necessitated by the computer program; others are made in hopes of improving the product. Comments from readers will be welcome. Salary information is not tabulated here, but contained in a companion volumn, California Public Library Salary Survey 1983.

Column headings - Public libraries

Table 1, "Profile"

Library. Short name of public library.

Co.	County Library
L.D.	Library District
U.S.D.	Unified School District Library District
(no label)	Municipal Library

A few libraries are officially known by memorial names, but are shown here by their city or district site.

Carmel	Harrison Memorial Library
Monterey Park	Bruggemeyer Memorial Library
Redlands	A. K. Smiley Public Library
Salinas	John Steinbeck Library
Santa Paula	Blanchard Community Library

Emeryville and Piedmont are included with Oakland
Mariposa Co. is included with Merced Co. for FY 1982; for FY 1983 it will be included with Tuolumne Co.
Sierra Co. is included with Plumas Co.
Thousand Oaks is included with Ventura Co.

System. The California Library Services Act cooperative public library system to which the library belongs.

BALIS	Bay Area Library and Information System, Oakland
Black Gold	Black Gold Cooperative Library System, Ventura
49-99	49-99 Cooperative Library System, Stockton
Inland	Inland Library System, San Bernardino
MCLS	Metropolitan Cooperative Library System, Pasadena
MOBAC	Monterey Bay Area Cooperative Library System, Monterey
MVLS	Mountain Valley Library System, Sacramento
NBC	North Bay Cooperative Library System, Santa Rosa
No. State	North State Cooperative Library System, Willows
Peninsula	Peninsula Library System, Belmont
SJVLS	San Joaquin Valley Library System, Fresno
Santiago	Santiago Library System, Orange
Serra	Serra Cooperative Library System, San Diego
So. Bay	South Bay Cooperative Library System, Santa Clara
So. State	South State Cooperative Library System, Los Angeles

Population. Estimate for January 1, 1982 of the number of persons served and taxed for library support. For most jurisdictions, the estimate is from the Population Research Unit of the State Department of Finance. For a few it is supplied by local planning departments or census tracts, or is computed by the State Library. These figures are intended to represent as accurately as possible the actual number of persons served and taxed for service, with the principle that no population is counted twice and credited to more than one library. Many county libraries are not credited with the entire county population, for their boundaries contain cities or districts independently supplying service. District libraries typically serve an unincorporated area larger than their central city. Some special cases noted:

Carmel is paid to serve a populous portion of Monterey County
Del Norte County Library District is co-terminus with the county
Glenn County is served by the two municipal libraries of Orland and Willows
Mill Valley is paid to serve a populous portion of Marin County
Santa Barbara County is served by the three municipal libraries of Lompoc, Santa Barbara and Santa Maria

Building outlets. Number of fixed building outlets providing public library service. This includes a main library, branch library, and library station but not an administration headquarters providing no public service.

Branch is an extension library open some part of each of five days a week, has at least 1,400 sq. ft. of floor space, a general book collection of at least 7,000 volumes, and is staffed with the equivalent of at least one librarian and one clerical employee during the hours open for service.

Station is a library structure smaller than a branch, providing a lower level of service.

On the statistics table, the figure for the reporting year (FY 1981-1982) is used; in California Library Directory 1983 the figure for the current year (FY 1982-1983) is used.

Total service outlets. Total of fixed building outlets plus the number of stops by any mobile library (bookmobile, trailer, van, etc.) operated by the library.

Hours weekly all units. Number of hours of public service provided by all outlets, including mobile library service hours but not travel time. Fractions of hours are dropped.

Expenditure per capita. Total operating expenditure expressed as per capita. Annual report line C12, "Total Operating Expenditure", for the reporting year is added to line C18, "Estimate of services and supplies benefiting library expended by other city/county division, not charged to library budget". This sum, (formerly called "Equivalent operating expenditure"), is divided by the population served (A7). Since the per capita is based on expenditure, not income, it is only an approximate source for matching against California's new Public Library Finance Act (SB 358).

Circulation per capita. Total circulation of all materials (E7) is divided by the population served (A7). Data on in-library use of materials is not gathered at this time.

Reference per capita. Total reference questions answered (E16) is divided by the population served (A7).

Turnover. A measure of the activity of the book collection. Total circulation of books, periodicals and pamphlets (E6) is divided by total volumes held, units (D2). This is one of the new measures recommended by the American Library Association for the public library planning process in Output Measures for Public Libraries, (ALA 1982).

Table 2, "Income"

Local sources. Total income available from sources local to the jurisdiction.

Appropriation for the library from local jurisdiction funds (including subventions from state funds)

Special district augmentation funds, for counties and districts

Contract payment from another jurisdiction for which the library provides services

Fines, fees and other income collected by the library, if retained for library use

State sources. CLSA funds for ILL, direct loan and data base reimbursement, if directly received by the library.

Federal sources. General revenue sharing is the most common source; there are a few cases of other federal grants or allocations. LSCA project funds are not included.

Reserves. Transfer from reserve accounts, carryover, beginning balance or similar other income.

Total operating. Total income available for operating expenses (not capital outlay), the sum of local, state and federal sources and transfer from reserves or beginning balance.

Table 3, "Expenditure"

Library materials. Expenditure for all library materials: books, periodicals, microforms, audiovisual materials. Excludes supplies, binding and materials leased on contract.

Salaries. Expenditure for staff salaries and benefits of administration and library service personnel. Excludes maintenance staff paid from budget.

Operating expend. Total operating expenditure: materials, salaries, operations, contract services, transfers, payments. Excludes capital outlay and transfer to reserves.

Capital. Expenditure for capital outlay items: equipment over $200, sites, buildings, remodeling, vehicles, etc.

Total. Total expenditure: operating expenditure plus capital outlay and allocation to reserve.

Table 4, "Collections"

Books added. Unit count of volumes added during the fiscal year, gross number not adjusted for discards. Includes bound serials and continuations.

Volumes held. Unit count of all volumes held at end of fiscal year, June 30.

Documents. Unit count of documents (separate from books), items in pamphlet or information file. Documents included in the volume total are not counted twice.

Microforms. Unit count of microfilm reels, microfiche sheets, microcards.

Periodicals. Number of periodical titles currently received. Includes magazines, newspapers, loose leaf services. Excludes bound serials and continuations treated as books.

Maps. Unit count of maps and charts.

Films. Title count of moving pictures, all speeds and reel sizes.

Video. Title count of videorecordings, all speeds and formats.

Audio. Title count of audiorecordings, disc and tape, all speeds and formats.

Table 5, "Staffing and activities"

Staff count. Total count of persons employed full-time and part-time, paid from library budget, as of June 30, reporting year. Number cannot be a fraction.

Librarian FTE. Number of persons working as Librarian, with MLS degree or equivalent, expressed in full-time equivalent (FTE). Full-time is normally 40 hours per week, but not less than 36. Includes library administrator.

Support FTE. Number of persons working in support and paraprofessional positions, expressed in FTE. Includes library technical assistants, clerical and other (non-librarian) support positions. Includes student pages and all part-time help. Does not include staff provided by contract or local government.

Total FTE. Total number of librarians and support persons, expressed in FTE.

Volunteer FTE. Number of persons volunteering work in the library, unpaid, expressed in FTE.

Circulation. Total annual out of building circulation, all materials, all units.

ILL borrow. Number of items borrowed by reporting library on interlibrary loan from other libraries. Includes photocopies sent in lieu of ILL.

ILL lent. Number of items lent by reporting library on interlibrary loan to other libraries. Includes photocopies sent in lieu of ILL.

Reference. Annual total of questions answered by reporting library. Includes activities requiring use of library collections and/or training and experience of staff, but not simple directional questions. Counts negative response that is satisfactory to patron as an answered question.

Column headings - Academic & special libraries

Table 1, "Staffing, expenditure and activities"

Library. Short name of library, identified fully in Library Index.

Persons served or Students. Annual count of library users, if available, or number of persons in organization for whom library is maintained. For academic libraries, count of student body, full time and part time, is recorded.

Staff FTE. Number of persons employed in the library, expressed in full-time equivalent (FTE). Full-time is normally 40 hours per week, but not less than 36. Includes student pages and all part-time help. Includes library administrator.

Materials. Expenditure for all library materials: books, periodicals, microforms, audiovisual materials. Excludes supplies, binding and materials leased on contract.

Salaries. Expenditure for staff salaries and benefits of administration and library service personnel. Excludes maintenance staff paid from budget.

Total operating. Total operating expenditure: materials, salaries, operations, contract services, transfers. Excludes capital outlay and transfer to reserves.

Circulation. Total annual out-of-building circulation, all materials, all units.

ILL borrow. Number of items borrowed by reporting library on interlibrary loan from other libraries. Includes photocopies sent in lieu of ILL.

ILL lent. Number of items lent by reporting library on interlibrary loan to other libraries. Includes photocopies sent in lieu of ILL.

Reference. Annual total of questions answered by reporting library. Includes activities requiring use of library collections and/or training and experience of staff, but not simple directional questions. Counts negative response that is satisfactory to patron as an answered question.

Table 2, "Collections"

Books added. Unit count of volumes added during the fiscal year, gross number not adjusted for discards. Includes bound serials and continuations.

Volumes held. Unit count of all volumes held at end of fiscal year, June 30.

Documents, pamphlets. Unit count of documents (separate from books), items in pamphlet or information file. Documents included in the volume total are not counted twice.

Microforms. Unit count of microfilm reels, microfiche sheets, microcards.

Maps. Unit count of maps and charts.

Films. Title count of moving pictures, all speeds and reel sizes.

Video. Title count of videorecordings, all speeds and formats.

Audio. Title count of audiorecordings, disc and tape, all speeds and formats.

Periodicals. Number of periodical titles currently received. Includes magazines, newspapers, loose leaf services. Excludes bound serials and continuations treated as books.
